Learning English verb times can be challenging for non-mother tongue because there are so many rules to remember. Using a chart, it is possible to simplify the task of learning all thirteen times by dividing them into different phrase structures. The following tips will also help you improve your English skills while you practice the times. Remember that every tension changes into the auxiliary verb, rather than in the main verb. The main verb is both in its simple form (Do / Dide, Play / Play, Make / Made), The Present Participate194; (going, playing, looking, eat) or the past Particeple (he had done, thought, etc.). I'm watching TV now. You are watching TV. He is watching TV right now. The only times that do not take, 160; auxiliary verbs  , 160; They are simple and simple past. Russian teaches Tuesday. Yesterday they played soccer. To choose the correct time, make sure you check the time expressions used before combining. You need to know when something happens before you can decide which tension to use. , 160; In this first example, "Right194; 160; Now" implies  , 160; They have continuous voltage.
