

I'm not robot!

Undertale APK - Many years ago there were only two races, they were people and monsters. However, at one point a terrible war began between them, in a long battle people still won this war, and imprisoned the monsters deep underground. After many years, our hero went in search of an ancient cave, but after falling into it, he fell into the underworld, in the very place where the monsters were imprisoned, and this is where our story begins, in which we are faced with many adventures, battles, and exciting dialogues . Get out of a horrible dungeon, and slay all the monsters on your way. ApkVision.com Home»Games»Adventure»Undertale Undertale is a game about a little girl who would make tough adult choices. While a walk through the story, you could assist the monsters or to defeat them in the fight, so you can choose the development of the future story mode. As it was mentioned before, the main character of this game is a little girl who accidentally found herself in the underworld. This world is inhabited by various monsters which have found themselves trapped in the underworld war with the humans. The key character of Undertale to go through lots of trials, to make very brave decisions, to deactivate hundreds of cunning traps, and in the end to make a decision - to destroy monsters or give them a second life and freedom. The game is rather an adventure but it also has some major features that distinguish it from other adventure games. All your choices during the game will have an impact on the ending of the story mode, so you need to think twice before accepting one or another decision. If you are going to speak with a monster, you'll to solve his problem. But, in doing so, you can avoid the bloodshed and be able to turn a potential enemy to a real friend. Moreover, if you decided to fight with a monster, you'll be able to appreciate the unique fighting system. The action of gameplay is taking place in the dungeon with narrow corridors and rooms where you need to solve the conundrums in order to get the useful items and to get a hidden exit. There are also many tips, observe the locations to find them all. The major features of the Undertale:great in-game locations that decorate the gameplay;the well-designed fighting system as well as control bar at the device's screen;various unique conundrums to solve;an ability to make a different decision that may have an impact on story mode and the ending of the game. Undertale was able to tell the players an entertaining story about true friendship, love and death. According to the plot, the main character is thrown into the underworld with real monsters. As it turned out later, all these creatures were imprisoned here after losing the war with humans. From this moment on the girl's shoulders, severe trials, traps and obstacles fall which can ultimately lead to the destruction of evil spirits or she will be released.Unlike other adventure games, Undertale offers the player to independently choose the outcome of the game, simultaneously solving puzzles and crashing everything around. With each opponent on the player's path, you can immediately enter the battle, or talk and try to disperse peacefully. It is such gaming chips that dilute the gameplay part and you do not have to be bored. Shadow Wars is a logic game in which the main characters will be werewolves, ghouls, the dead and The style of the Wild West is unique, and if there are still monsters there, everything becomes Island 2: Ashes Of Time is the sequel to the exciting adventure game with a beautiful 2D rendered Bonetale is a pixel arcade game featuring characters from the Undertale universe. Take on the role Braw! Stars is an interesting toy for Android mobile phones and tablets, released by the developers Geometry Dash Meltedown is an adventure in the arcade style of the geometric universe, which is Undertale Mod 2.0.0b Mod: Full Game (143 MB) Additional Information Requires Android4.0 and up Mobile TestingSecurity (offline) DeveloperEditor's Choice, Toby Fox, Undertale apk is a classic adventure game, it is not only the gameplay, but also its world view and emotional expression, I am taking the peace line. The music of the game is the most touching, if you can At the end of the game, you may be able to experience my feelings.
